ORDER CODE: **SMARTBATWASH**

Spektra®

The **SmartBat** Wash is a high-powered LED Wash Light, that can be operated wirelessly or wired. This IP65 Wash Light has 15 x 20W RGB + Warm White LED emitters, fully calibrated to guarantee consistency, high-quality white values (CRI >93), a dynamic array of true colours with smooth colour mixing, and a powerful 10,000 lumen output. The **SmartBat** Wash is extremely flexible, and it can be used wirelessly with the built-in battery, using CRMX, W-DMX and RDM or, alternatively, wired with power and data cables, bypassing the battery, and enabling higher brightness levels. The beam angle can easily be adjustable through a magnetic beam shaper filter, allowing a wider coverage whilst keeping a high output. The **SmartBat** Wash has all the software features of the Ecl range, sharing the same user settings and capabilities.
